The Associated Press has an article out today concerning the House Republicans' opposition to AIDS relief funding being hijacked for ultra-liberal causes. Congressman Pence is mentioned as well:

*Third, Republicans claimed that the Democratic-written bill undoes carefully crafted rules that allow money to go to family planning groups for AIDS work as long as no money is spent on abortions. That change, Rep. Mike Pence, R-Ind., said at a news conference including anti-abortion groups, "would transform the program into a mega-funding pool for organizations with an abortion promotion agenda."*As you may recall, the aforementioned press conference occurred yesterday.
